- 6) By clicking on the **Date**, **Session** or **Ladder** you can go direct to the session required.
If you just want to look at your results from today or yesterday this is an easy way to find it.

- 7) You can also click on **X-Clubs Results**. This opens up the CompassMate website and from there you can click on **section Hamilton** (or club you are interested about) to see your score now that the boards have been scored against all the other clubs. Clicking on **overall** gives you a complete list of all the pairs who played those boards and where you sit. To make it quick to find yourself hit **ctrl F** on your computer and type your last name into the “Find” box that appears and it will automatically take you to that line (which is hopefully closer to the top than the bottom!)
- 8) Clicking on **Ladder** gives you a progress report on the competition. Note that the Handicap result is displayed first, and you will need to scroll down to see the raw result.

As you can see you get a full list of the results as well as the hand record with possible contracts for this board. In this case I can see the double was theoretically correct but the was because the opponents were the only ones to bid (and make) slam so we got a bottom board (bugger...).
